Every amount, point value and ban in this table comes unchanged from the reviewed data set — not one figure on this page is typed by hand.

Speeding · Vehicle class

The German fine catalogue bands speeding by vehicle class as well as by location. Heavy vehicles have a ladder of their own, and vehicles carrying dangerous goods or passengers a sharper one still — with a driving ban starting earlier than it does for a car.

Alcohol and drugs

Escalation follows the entries already on the register, not the reading that was measured. The zero-alcohol rule for new drivers has a row of its own.

OFFENCE	FIRST TIME	SECOND DECISION	FURTHER	POINTS	BAN	CAT. NO.
Alcohol above the limit (§ 24a(1) StVG) From 0.5 ‰ alcohol in blood or 0.25 mg/l in breath — the two readings carry equal weight.	500 €	1.000 €	1.500 €	2	1 mo.	241/241.1/241.2
THC above the limit (§ 24a(1a) StVG) From 3.5 ng/ml tetrahydrocannabinol in blood serum — a threshold of its own.	500 €	1.000 €	1.500 €	2	1 mo.	242/242.1/242.2
A listed intoxicant (§ 24a(2) StVG) Detection in blood serum of any of the eight listed substances is enough; there is no threshold to be over. THC is not on that list.	500 €	1.000 €	1.500 €	2	1 mo.	243/243.1/243.2
THC together with alcohol (§ 24a(2a) StVG) From 3.5 ng/ml THC in blood serum combined with alcohol consumption.	1.000 €	1.500 €	2.000 €	2	1 mo.	243a/243a.1/243a.2
Zero-alcohol rule for new drivers (§ 24c StVG) Alcohol or THC during the probationary period or before turning 21 — the catalogue knows a single flat rate here.	250 €	—	—	1	—	243b
